Any construction, use, occupancy or other work requiring a permit, certificate, or approval within the Village's Ordinances shall not commence, resume or continue until all required approvals have been made and all required fees as required by this Ordinance or any other Village Ordinance are paid to the Village Treasurer.

Whenever any construction, use, occupancy or other work requiring a permit, certificate, or approval within the Village's Ordinances is commenced, resumed or continued before such a permit, certificate or approval is issued, the fees for reviewing and processing the application for such permit may be tripled to take account the added difficulty and time required to process the application.

If an application for a permit, certificate, or approval is withdrawn after the review and processing of such application has substantially commenced, the application fee may not be refunded.

If two (2) of the same inspections fail, a re-inspection fee shall be paid to the Village prior scheduling each additional inspection, except for Commercial—including Multi-Family--Electrical Permits, wherein the re-inspection fee shall be paid to the Village if the first inspection fails and prior to scheduling each additional inspection.
