

Project Update

County H and Bain Station Road Roundabout Project

Kenosha County's County H and Bain Station Road Roundabout Reconstruction Project is well underway. Please see below for the latest project updates.

Please note that all project work is weather dependent and subject to change.

As part of this project, the following work will be taking place over the next few weeks:

- Final public and private utility relocations
- Storm sewer installation
- Curb and gutter work
- Sidewalk and concrete truck apron installation

For the safety of the traveling public and our crews, we ask that travelers adhere to the "road closed" signs and utilize the posted detour route and not detour through local subdivisions or on private driveways and roadways to get around the closure.

Detour Route:

Motorists are encouraged to utilize WIS 50 (75th Street) east to WIS 31 (Green Bay Road), south on Green Bay Road to WIS 165 (104th Street), west on 104th Street to County H (88th Avenue) to get around the closure.

The project team thanks you for your patience and cooperation throughout this project!
