

# Project Overview

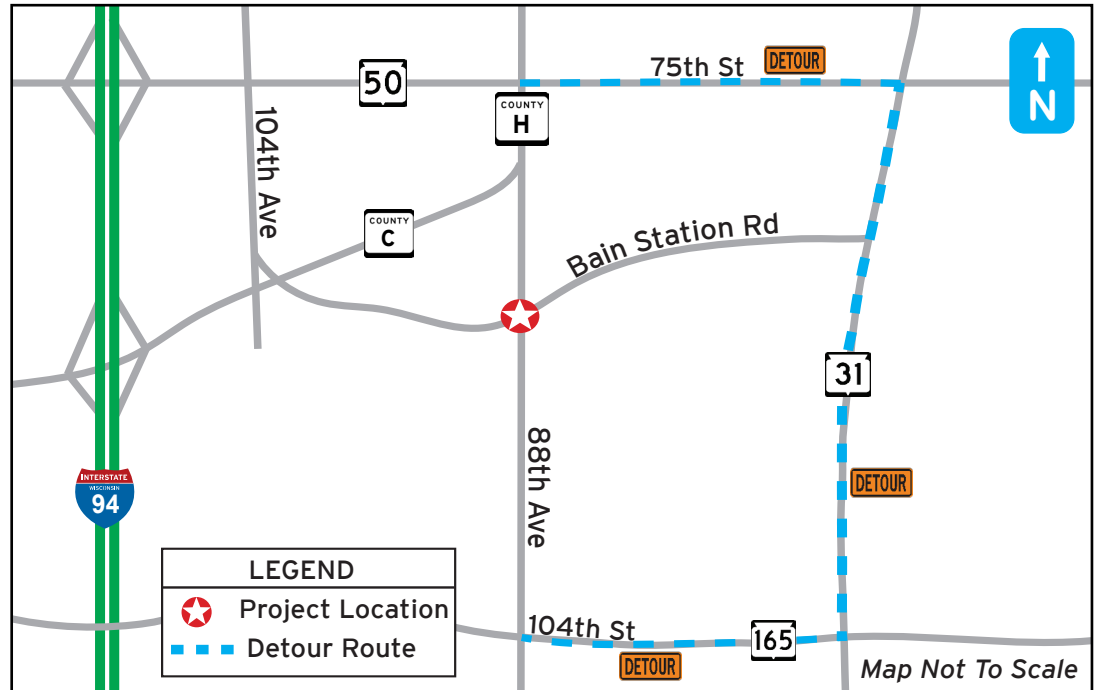

## County H and Bain Station Road Roundabout Project

Kenosha County is preparing to begin reconstruction of the intersection of County H and Bain Station Road in late July with scheduled completion late fall 2017.

The reconstruction will improve the intersection geometrics by converting the intersection to a roundabout.

Key elements of the roundabout project include:

- Excavation, grading, placement of base aggregate
- Constructing concrete curb and gutter
- Installing storm sewer
- Installation of street lighting
- Placement of asphaltic concrete pavement
- Adding concrete sidewalks and bike ramps
- Installation of permanent traffic signing and pavement marking

The intersection of County H and Bain Station Road will be closed to thru traffic throughout the duration of the project. Travelers are encouraged to follow the detour to get around the closure. (See *map for detour*.)

Please note that all project work is weather dependent and subject to change. Additional details will be provided closer to the start of construction.
