### Site and Operational Plans for Uline Warehouse

**PLEASANT PRAIRIE, WI – January 22, 2018** — On Monday, January 22, the Pleasant Prairie Plan Commission considered and approved Site and Operational Plans for interior building modifications and occupancy of a 417,384 square foot building owned by LakeView XVIII Venture, LLC which is currently under construction by CenterPoint Trust. The request was made by Brad Folkert, Director of Construction/Facilities and agent for Uline. The plans are for a fulfillment warehouse located at 11559 80th Avenue in LakeView Corporate Park which is known as Uline I3 Box Depot. The entire building will be used for warehousing and storage of shipping supplies. It is projected that 70 employees will be working at this location, 40 working on first shift and 30 working on second shift. Interior improvements are being made including the addition of a cafeteria, management offices and the addition of 36 dock doors to name a few.

Uline currently operates two corporate headquarter buildings, a conference center, and four distribution warehouses in Pleasant Prairie. Uline is a community partner that believes in high quality customer service and quick delivery of its products. They sell thousands of products through their catalog service to businesses across North America.

“The Village is proud that Uline, a business that is the leading distributor of shipping, package and industrial supplies is a corporate resident. They are a company that not only offers quality products, but is a responsible employer and is a catalyst for economic growth in the Village,” said Jean Werbie-Harris, Village of Pleasant Prairie Community Development Director.

Uline intends to occupy the space when construction is complete by May of 2018.

Agendas and related documents for the Pleasant Prairie Plan Commission meetings are posted to [pleasantprairieonline.com](http://pleasantprairieonline.com).
